ORDER

AND NOW, this 8th day of April 2024, upon consideration of the Plaintiff's Motion to Compel Oral Deposition from Daphna Zekaria and Sokolski & Zekaria, P.C (ECF No. 160), and all papers filed in response, the Motion is **DENIED** without prejudice. If the parties continue to refuse to cooperate to address discovery matters, constantly requiring judicial intervention on even routine discovery issues, the Court may sua sponte appoint a Retired Jurist as Special Discovery Master to facilitate the process of Discovery for case management purposes. If the Court appoints such a Special Master, the Special Discovery Master's fees and costs will be borne equally by all the parties to this action. Should the parties wish to jointly recommend a Special Discovery Master for this action, the Court will consider the request and rule on the request.

IT IS SO ORDERED.
